On August 19, 2020, Arizona Water and Coronado signed an Agreement For Sharing Of Water Information Regarding Water Consumption And Water Service Disconnection ("Agreement"), which has been approved by the Commission in Decision No. 77992.

Arizona Water is granted a variance from Commission Rule A.A.C. R14-2-410(A)(3) for the limited purpose of implementing the Agreement with Coronado.

Pursuant to the terms of the Agreement, Arizona Water will disconnect water service to a customer who is liable to Coronado for overdue sewer service charges at the premises where the customer receives water service from Arizona Water and sewer service from Coronado. Prior to Coronado sending a disconnection request to Arizona Water, the terms set forth in the Agreement must be met, including:

- i. The customer must be at least 90 days delinquent in payment of sewer service charges;
- ii. Coronado must have offered a payment plan to the customer and the customer must have rejected or defaulted on the payment plan; and
- iii. Coronado will have notified the customer, in writing and by posting notice at the premises that water service will be disconnected no less than 7 days after the date of the notice.

Upon Coronado's receipt of payment in full by a disconnected customer, or upon a disconnected customer's entry into a payment plan with Coronado, Arizona Water will reconnect water service to the premises in accordance with the terms set forth in the Agreement and Arizona Water's normal procedures and timelines, as set forth in Arizona Water's tariffs, including without limitation Tariff TC-243 and the rules and regulations of the Commission.
