

Project Submittal Requirements

In preparation of the project submittal to Arizona Water Company ("Company"), please use the information provided below and Company design standards to guide in the preparation of the formal water plans and water report for the project.

Please submit the following documents to:

Arizona Water Company
ATTN: Development Services
3805 N. Black Canyon Hwy.
Phoenix, AZ 85015

Project Name: _____

Date of Submittal: _____

- Project Submittal Requirements
- Electronic (PDF) copies of all submittal documents.
- Two hard copies of the formal water design plans (24-inch x 36-inch), including the location of all other utilities (gas, electric, telephone, cable television, sewer, etc.) as well as paving and profiles.
- Two hard copies of the formal plat. (24-inch x 36-inch)
- Two hard copies of the formal water report.
- CAD file of water plans, must include survey control or land base. (File Format: DWG)
- CAD file of plat, must include survey control or land base. (File Format: DWG)
- For resubmittals to the Company, include a comment response list.

Submittal of the water design plans and water report must conform to Company design requirements as well as additional permitting agencies in the project area.

Development Services will review your project once all required submittal documents, and required initial deposit are received by the Company. The assigned coordinator will contact you to schedule an introductory meeting to discuss the method of service and next steps of the project. Please allow up to 45 business days to complete first review of your request prior to contacting the Company.
