

ARIZONA WATER COMPANY

DEVELOPMENT ENGINEER

Arizona Water Company, an investor-owned public utility providing water service to customers throughout Arizona, is seeking a Development Engineer for its Phoenix office.

Responsibilities include overseeing and managing development activities, including: planning, coordinating, administering and evaluating private development projects, and developing and implementing processes, procedures, systems, standards and services.

Must have a BS degree in civil engineering, plus four years' experience in Project Management, Engineering Design, Land Development and/or Development Agreements. Any equivalent combination of experience and training which provides the knowledge and abilities necessary to perform the work is acceptable. Engineer-in-Training preferred.

Also, must have an ADEQ Water Distribution Operator 2 certification, or obtain it within 18 months. Valid Arizona driver's license with an acceptable driving record is required.

The company offers a competitive wage and benefit package, including company-paid medical, vision, dental, holidays and vacation, as well as participation in its 401(k).

Send detailed resume and employment application to awc-hr@azwater.com.
