

ARIZONA WATER COMPANY

PART-TIME ENGINEERING DEVELOPMENT COORDINATOR

Arizona Water Company, an investor-owned public utility serving customers throughout Arizona, is seeking a temporary, part-time Engineering Development Coordinator. This position reports to the Vice President of Engineering and is located in the company's Apache Junction office.

Responsibilities include: coordinate and manage the engineering review and approval process of all outside consultants' designs of water infrastructure for quality control and to ensure compliance with the Company's material specifications, details and design requirements. Ensure receipt of all required permits, funding and approvals. Coordinate projects with both developer and company engineers.

Requirements include five years' experience as detail designer, plan reviewer or land development with a water utility. Must have knowledge of engineering design standards and principles, and potable water design requirements. Must have excellent organizational and communication skills.

Send detailed resume and employment application to awc-hr@azwater.com.
